

## HCA Healthcare hires SSi-SEARCH to recruit national Chief Medical Information Officer

Atlanta, GA (September 1, 2011), [SSi-SEARCH](#), an executive search firm focused exclusively on healthcare technology leadership, has been hired to recruit a CMIO for HCA Healthcare, a corporate leader of hospitals and health systems.

The CMIO will both lead strategically and successfully execute on a tactical plan to align physicians with the health system through the use of clinical information systems. This is an opportunity for a leader of high character and positive energy to create a lasting legacy within health IT.

In addition to the CMIO search, SSi-SEARCH will also assist in the selection of a CIO Outpatient Physician Services, a national role. SSi-SEARCH has successfully placed key health IT leadership throughout HCA Healthcare.

### *About HCA Healthcare:*

HCA is the nation's leading provider of healthcare services, composed of locally managed facilities that include 164 hospitals and 111 freestanding surgery centers in 20 states and England. At its founding in 1968, Nashville-based HCA was one of the nation's first hospital companies.

### *About SSi-SEARCH:*

SSi-SEARCH a leading executive search firm focused exclusively focused on the recruitment of health information technology (HIT) leaders, specializing in CIO and CMIO search for healthcare.
